Student Name: ___________________________ Perm: ____________ Qtr/Yr Enrolled: ________

M.A. Plan (select one):

☐ M.A. Plan I (Thesis): Minimum of 30 units, distributed as outlined below and a research thesis required
☐ M.A. Plan II (Examination): Minimum of 36 units, distributed as outlined below, and internship required

MASTER OF ARTS – MOLECULAR, CELLULAR AND DEVELOPMENTAL BIOLOGY

Emphasis in Pharmacology and Biotechnology – 2017-18

In addition to departmental requirements, candidates for graduate degrees must fulfill University requirements described in the “Graduate Education” section of the UCSB General Catalog.

M.A. students are required to demonstrate competency in fundamental areas of Molecular, Cellular and Developmental Biology by achieving an average of a B or better in the core course modules given each quarter with no grade lower than a “C” in a module, and a B or better in elective courses. It is expected that all M.A. students are enrolled as full-time students and earn a minimum of 12 course units each quarter.

The Emphasis in Pharmacology and Biotechnology involves faculty from the departments of MCDB, Chemistry and Psychology, and the interdepartmental graduate program in Biomolecular Science and Engineering (BMSE). The interdisciplinary nature of the program allows students to gain a broad understanding of topics relevant to the pharmaceutical/biotechnology industries including molecular pharmacology, drug design, large scale production of protein-based therapeutics, molecular modeling, animal models as behavioral screens for psychotherapeutic drugs, and current methods in biotechnology. The program features a structured set of courses which are taught individually and collaboratively by faculty from a variety of disciplines. Additional summer internships in the pharmaceutical and biotechnology industry, or thesis projects in an academic setting give students an opportunity to gain experience in the field. This Emphasis meets the growing need of the pharmaceutical and biotechnology industries for scientists with a master’s degree in the area of pharmacology and biotechnology.

ELECTIVE COURSES

Plan I: 7-13 units
Plan II: 14-15 units

Electives should be taken from a selection of graduate courses chosen from the MCDB, Chemistry and Biochemistry, and Psychology departments. The electives are grouped into three tracks. The tracks have been established to reflect the three traditional areas of research in the field of pharmacology and biotechnology, and serve as a guideline for students to help shape their curriculum. The intention is to keep the choice of electives as flexible as possible and to allow students to explore different areas of pharmacology. Students who have not previously completed 8 units from the courses MCDB 126A-B-C-AL-BL are required to include at least 8 units from MCDB 226A-B-C-AL-BL in their electives.
Plan I  students are required to take a minimum of 7 units from among the tracks.  
Plan II  students are required to take at least 8 units of electives in one of the tracks, and the remainder of the electives may be taken from among any of the tracks.  

**Recommended Courses for the Tracks:**  
* Molecular and Cellular Biology  
  MCDB 203, 208AL, 222, 226A-B-C, 226AL-BL, 233, 245, 246, 247, 251, 252, 253, 293  
* Chemistry and Biochemistry  
* Neurobiology and Behavior  
  MCDB 251, 252, 253, PSY 215, 219, 221A-B, 231, 235, 268, 269  

**COURSE #** | **COURSE NAME** | **UNITS** | **QTR/YR** | **GRADE**  
--- | --- | --- | --- | ---  

| **LITERATURE COURSES**  
Plan I:  1 unit  
Plan II:  1-2 units  
MCDB 265, 266, 268, 595  
**COURSE #** | **COURSE NAME** | **UNITS** | **QTR/YR** | **GRADE**  
--- | --- | --- | --- | ---  

| **Research / Internship**  
Plan I:  up to 6 units  
Plan II:  4 units  
MCDB 596  
**COURSE #** | **COURSE NAME** | **UNITS** | **QTR/YR** | **GRADE**  
--- | --- | --- | --- | ---  

**SEMINAR REQUIREMENTS** (No credit towards degree unit requirements for MCDB 260, 262, 263 or 269)  
Students are expected to enroll quarterly and attend MCDB 262 (Research Progress in MCDB (FNS)) as well as MCDB’s weekly research seminars MCDB 260 and MCDB 263 each quarter until completion of degree.  

| **COURSE #** | **REQUIREMENT** | **FULFILLED**  
--- | --- | ---  
MCDB 260 | Research Seminar, each quarter |  
MCDB 262 | FNS Seminar, each quarter |  
MCDB 263 | Research Seminar, each quarter |  

---
**Teaching Assistantships**

Teaching Assistantships are not a requirement of the Plan I or Plan II M.A. degree. Students with Teaching Assistant (TA) appointments must complete the appropriate TA orientation and techniques courses (MCDB 500 and 502; taken once, without degree credit). When serving as a TA, students should enroll in the TA practice course (MCDB 501) for the appropriate number of units (maximally 4 units for a 50% TAship; without degree credit).

**M.A. Plan I (Thesis)**

Students will complete the degree once all core course and elective requirements are met and the written thesis is approved by the Thesis Committee.
