APPLIED MATHEMATICS MAJOR, B.S. – 2022-2023

To be admitted to full major status, students must complete the following pre-major Mathematics courses with a UC grade-point average of 2.5 or higher. All pre-major courses and Computer Science 8, 16 or Engineering 3 must be completed with a grade of “C” or better. Preparation Courses are excluded from pre-major GPA, but will apply to the overall major GPA. Entry into the pre-major does not guarantee admission to full major status. While completing required preparation, students are classified as pre-majors.

PRE-MAJOR

Math 2A-B or 3A-B ........................................................................................................................................... 8-10
Math 4A-B .............................................................................................................................................................. 8
Math 6A-B .............................................................................................................................................................. 8
Math 8* ................................................................................................................................................................... 5

*Note: Either Math 4A, 4B, 6A, or 6B must be completed with a grade of “B” or better in order to take Math 8.

PREPARATION FOR THE MAJOR

One course from Computer Science 8, 9, 16 or Engineering 3 ............................................................................ 3-4
Physics 1 or 6A or 21 ........................................................................................................................................... 3-4

UPPER-DIVISION MAJOR

52 UD units are required, of which a minimum of 40 must be in Mathematics. These units must be distributed as follows:

Math 104A-B, 108A-B, 117 ................................................................................................................................. 20
Two 2-quarter sequences from: Math 118A-B, 119A-B, or 124A-B ............................................................... 16
Math 104C, 108C, or 118C ..................................................................................................................................... 4
Math 132A or 137A ................................................................................................................................................ 4
8 units of upper-division Math or PSTAT electives ............................................................................................... 8

Elective courses taken: _______________________________________.

Note: The following courses will NOT apply to the major: Math 100A-B, 193, 195A-B; PSTAT 109, 193.

(With an advisor’s approval, 8 of the 52 UD units may be non-mathematics courses taken as part of a coherent mathematics program.)

MAJOR REGULATIONS

PREREQUISITES ........................................ Check the General Catalog for the prerequisites to all listed courses.
P/NP GRADING OPTION .......................... Not allowed for major courses (prep or UD major), including courses applied to the major from other departments.
SUBSTITUTIONS ...................................... In the major requirements permissible only by petition to the department chair and dean.
G.P.A REQUIREMENTS .......................... At least 2.0 overall UC average in all upper-division major courses and all courses (Prep and UD) for the major.
DOUBLE MAJORS ................................. With the approval of each department chairperson, up to a total of 8 units may be applied simultaneously to both UD majors.
